& Self learner
Team Collaboration
Problem Solving
Adaptability

TECHNICAL SKILLS

C++(Competitive Programming), Java, Python, Java Script, React, Express, MongoDB, SQL, NodeJS, Web Development, Data Structures & Algorithms, GEN AI, Video Editing, Content Creation, TailWind CSS

PROJECTS

Doctor Appointment System (Docly)

A web application where patient can book an appointment and doctor can approve the appointment. It has 3 types of users: Admin, Doctor and Patient. Used MongoDB as a database. Used ReactJS as a front-end framework. Used NodeJS and Express for building back-end. It's a MERN stack based web application.
